4-CHANNEL RADIO TRANSMITTER RNP-02

- radio transmitter mounted in Ø60 mm junction box,
- battery powered,
- possibility of connection to a traditional, existing household switch,
- four release inputs (no voltage),
- possibility of independent control of four receivers,
- wide range of operation (up to 200 m),
- possibility of simultaneous switching on/switching off any number of EXTA FREE system receivers,
- possibility of increasing operation range by means of RTN-01 retransmitter.

Radio transmitter RNP-02 realises remote control function of devices. It is mounted in a junction box and under the existing switch (monostable pushbuttons). This solution is very useful and results in easy installation of EXTA FREE system without interference in existing wiring system. There is a possibility of using electroinstallation equipment of any manufacturer (no design limit).

3 V DC (CR2032); IP20
Weight: 0,023 kg
PN-ETSI EN 300 220-1
PN-ETSI EN 300 220-2

ZAMEL hereby declares that the device is compatible with the essential requirements and other relevant provisions of Directive 1999/5/EC. Declaration of Conformity can be found on the web page www.zamel.com
