# RETRANSMITTER RTN-01

- easy mounting in a 230 V AC socket outlet
- cooperation with extra free devices
- wide operation range: up to 250 m
- increasing the operating range of the EXTA FREE radio devices

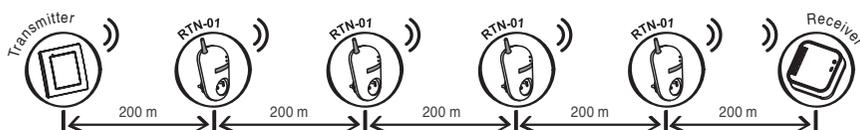

The ZAMEL company devices which are characterised with this sign can cooperate with each other.

## RETRANSMITTER RTN-01

RTN-01 retransmitter is used to increase radio transmitter signal range of wireless EXTA FREE control system. Up to four retransmitters can operate in a system - it gives the possibility to increase the distance between a transmitter and a receiver to 1000 m. The device is equipped with a 230V AC pass-through socket - every receiver can be connected to it. The retransmitter does not block the socket.

- increasing the operating range of the EXTA FREE radio devices,
- a possibility of cooperation with three other RTN-01 retransmitters,
- easy mounting in a 230 V AC socket outlet,
- low power consumption, a possibility of continuous operation,
- wide operating range (up to 250 m),
- optical signalling of power supply and radio transmission.

230V AC; 50Hz; IP20  
Weight: 0,180 kg  
PN-ETSI EN 300 220-1  
PN-ETSI EN 300 220-2  
PN-EN 60950  
PN-EN 61000
