## IR/EXTA FREE TRANSLATOR RTI-01

RTI-01 device connected directly to 230 V AC socket is used to control radio devices by means of a standard IR remote control. After a suitable push-button programming procedure is finished the device changes the signal from IR remote control to radio signal - in this way it allows to control any receiver of EXTA FREE system.

- **radio transmitter that allows to control device operation connected to the EXTA FREE system receivers by means of a standard IR remote control (TV, audio system remote control, etc.),**
- **a possibility of selecting a remote control push button (assigning function),**
- **remote control of EXTA FREE system receivers,**
- **wide operating range (up to 250 m),**
- **low power consumption,**
- **possibility of simultaneous switching on/switching off any number of EXTA FREE system receivers,**
- **possibility of increasing operation range by means of RTN-01 retransmitter.**

230V AC; IP20  
Weight: 0,018 kg  
PN-ETSI EN 300 220-1  
PN-ETSI EN 300 220-2  
PN-EN 60950  
PN-EN 61000

ZAMEL hereby declares that the device is compatible with the essential requirements and other relevant provisions of Directive 1999/5/EC. Declaration of Conformity can be found on the web page [www.zamel.com](http://www.zamel.com)
